# Horizon Europe Work Programmes 2021/22, 2023/24

## Innovative technologies for the **next generation Cloud-Edge-IoT continuum**

2020 –

Software technologies

IoT Research  
IoT and Digitising Industry Pilots

Cloud Computing

2021/22

Open Source for **Cloud based services**

Environments & tools for **Decentralised Intelligence** at edge  
Future European Platforms for the Edge: **Meta OS**

**Cognitive Cloud**  
Framework: AI-enabled Computing Continuum

2023/24

Open Source for Cloud/edge **Digital Autonomy**

Software Engineering Fundamentals to support **Digital Autonomy**

**Piloting emerging Smart IoT Platforms and decentralised intelligence (IA)**

**Cognitive Computing Continuum: Intelligence & automation for more efficient data processing:**

2025 –

...

**Funding > 250 Mill € WP2021-24**

# HE CL4 - Dest. 3, Section: From Cloud to Edge to IoT for European Data

## Pilot Actions - IA: -- 45 Mill €

- Piloting emerging Smart IoT Platforms and decentralized intelligence

## RIA 2023 – 28 Mill €:

- Cognitive Computing Continuum: Intelligence and automation for more efficient data processing
- 

## CSA (2 Mill €):

- **Horizontal Activities – 2 Mill €**  
of the ‘the ‘Cloud-Edge-IoT’ platform building  
→ standards, governance, security, SME/start-ups
- Coordination and Support  
of **Cognitive Computing Continuum**  
research and policy – 2 Mill €
- **Collaboration with NSF – 1 Mill €**  
on fundamental research on new concepts for  
distributed computing and swarm intelligence

2024 Calls Open

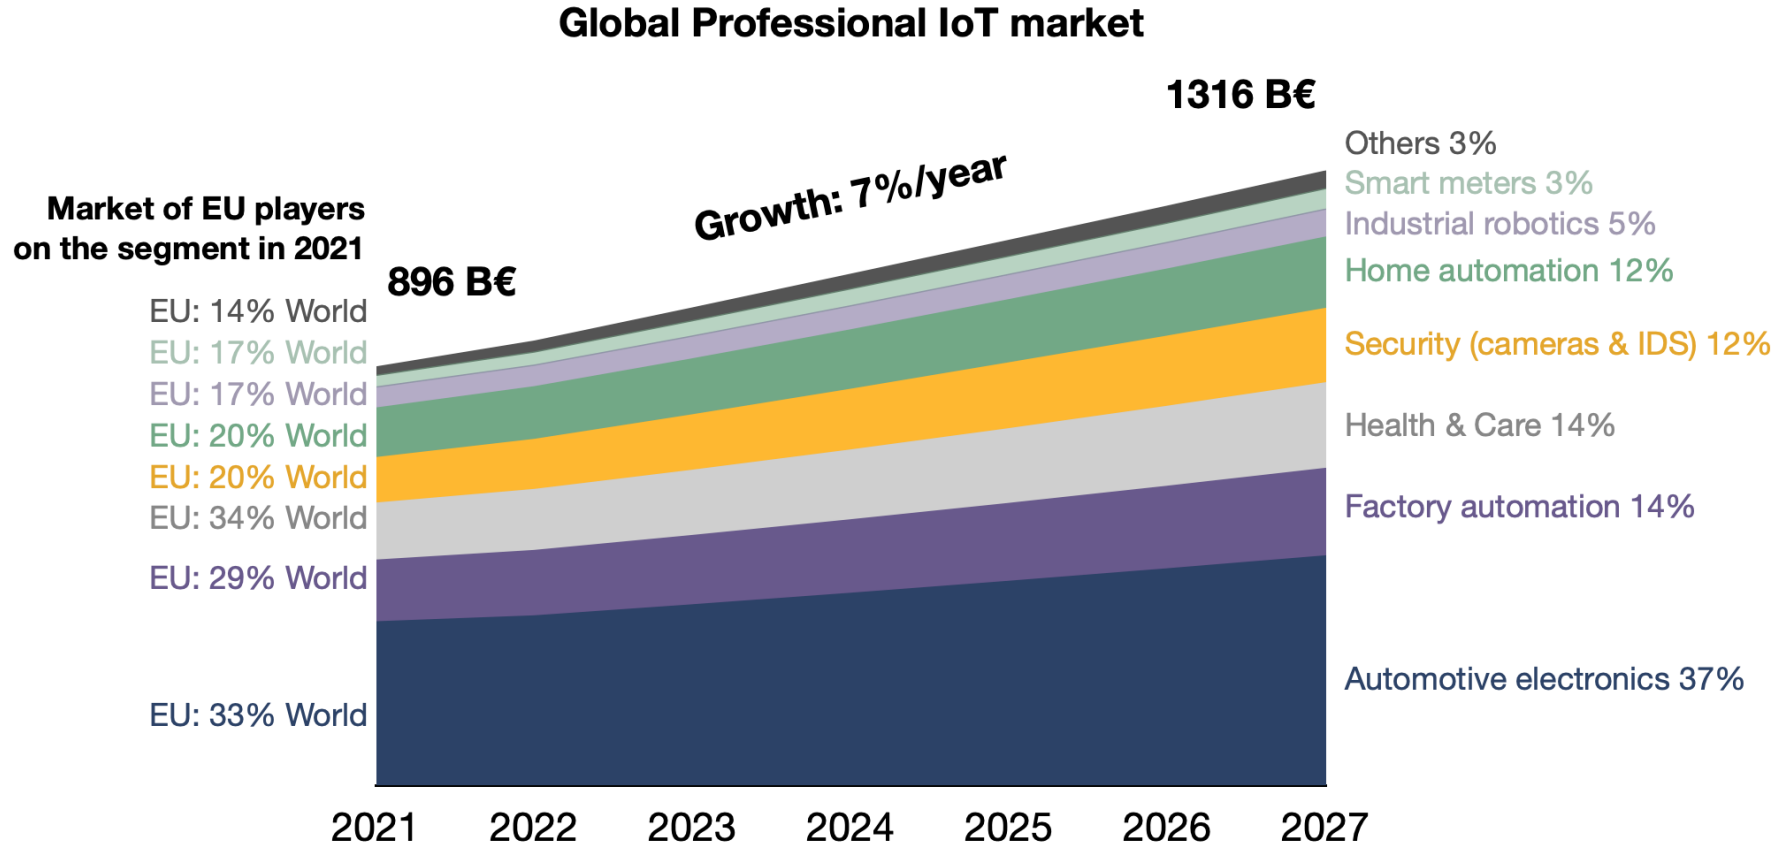

# Growth in Industrial Edge-IoT Markets

In 2021, the EU players are well positioned in the **leading professional IoT segments**:

- Automotive electronics
- Factory Automation
- Energy
- Health & Care

**EU ecosystems** face numerous challenges that should hamper its global competitive position:

- Reversing the trend of outsourcing to Asia
- Competition from Hyperscalers

Others: Charging stations, asset tracking, smart city sensors, sensors for agriculture, professional AR/VR headsets.

Source: DECISION Etudes & Conseil

# Edge Value Chains

## IoT ecosystem: From Smart devices to Cloud

### Smart devices

### IoT modules

- Hardware
- Software
- IA/ML

### Network

- LP WAN
- WiFi
- LTE-M
- 5G
- Bluetooth
- MQTT

### Near Edge Cloud

#### Network / joint server

#### Security / IAM

#### Application

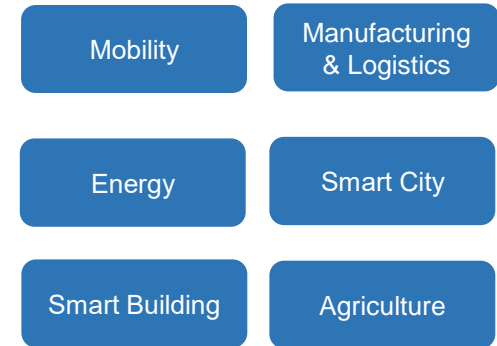

### Far Edge Cloud

#### Hyperscalers Big Data Cloud

### Applications

# Pilots for the Edge

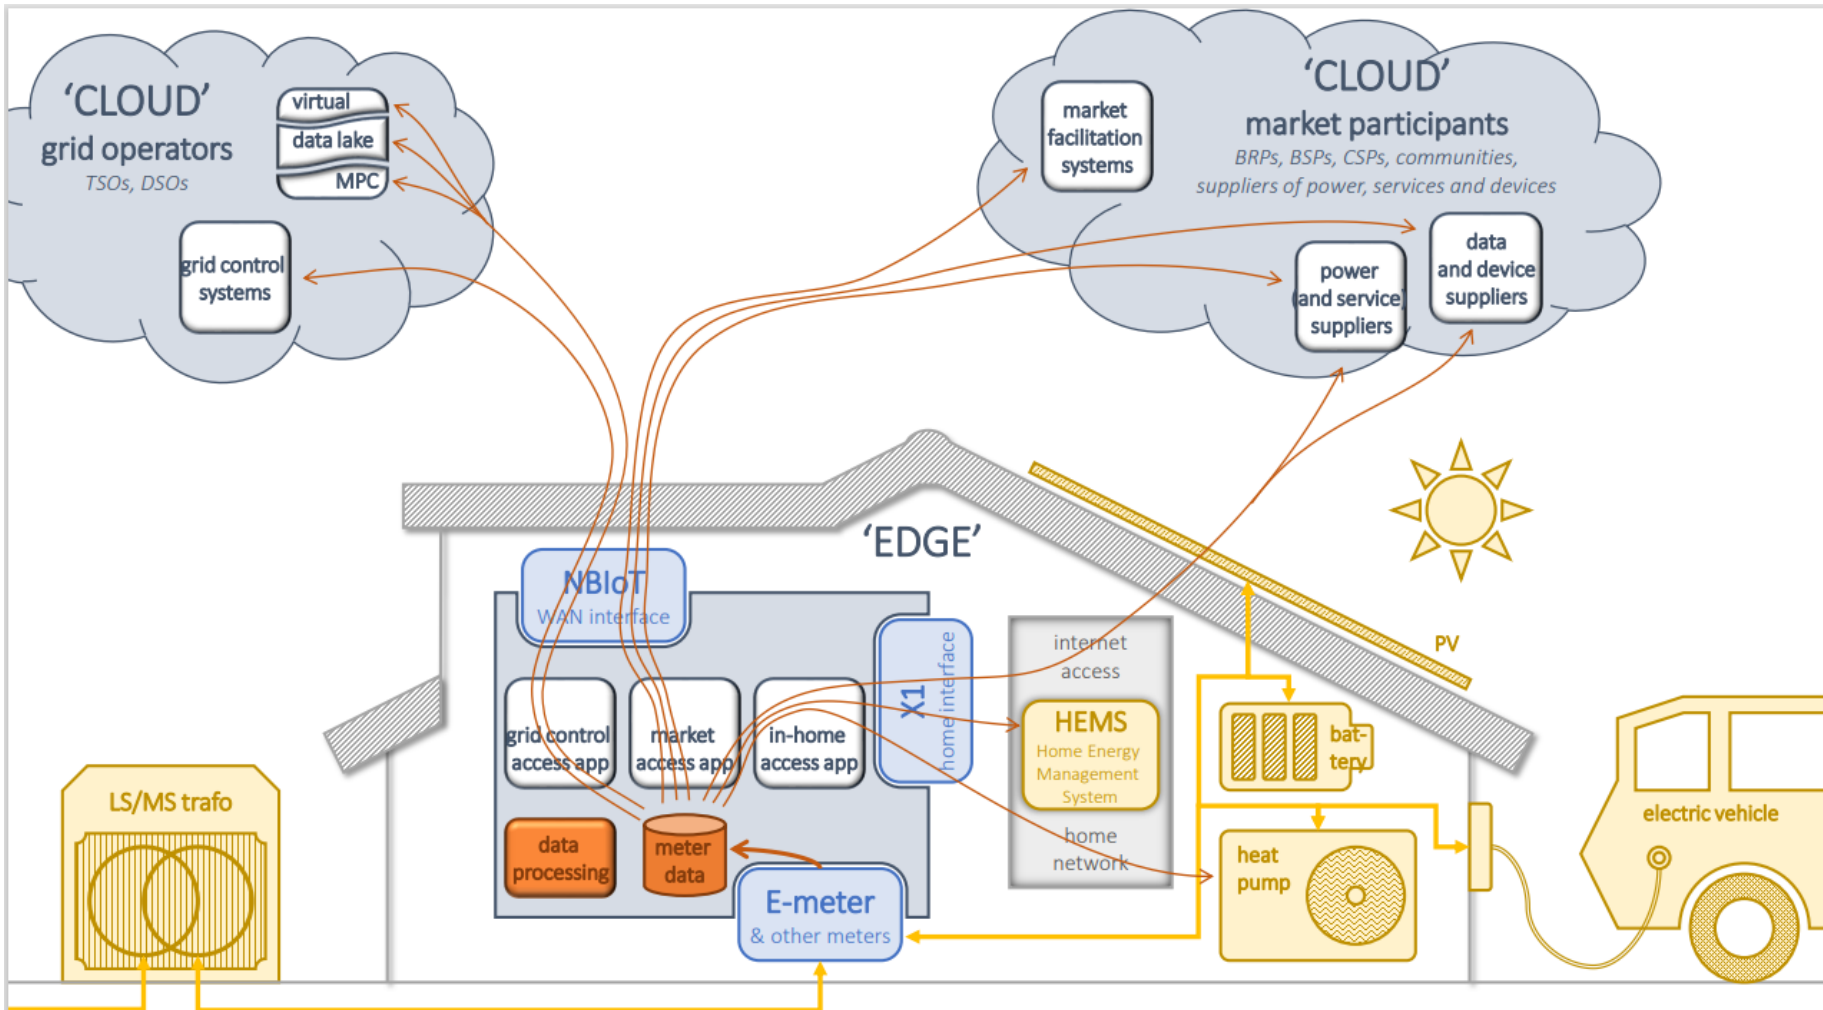

- **Challenges of System Integration**
- Embedded Systems & Control
- Internet of Things – Connected Objects
- Cloud – Digital Twins - Orchestration
- **A Platform Economy @theEdge**
  - **taking a system-level approach**
    - \* from hardware of smart devices
    - \* to operating systems at device and at system level,
    - \* to middleware and to application software
  - *Functions/Apps over the Air up-dates*
  - *Avoid Vendor Lock-in - Open, vibrant ecosystem*

# Decentralised Intelligence at the Edge

→ *dynamic up-dates of services + functions*

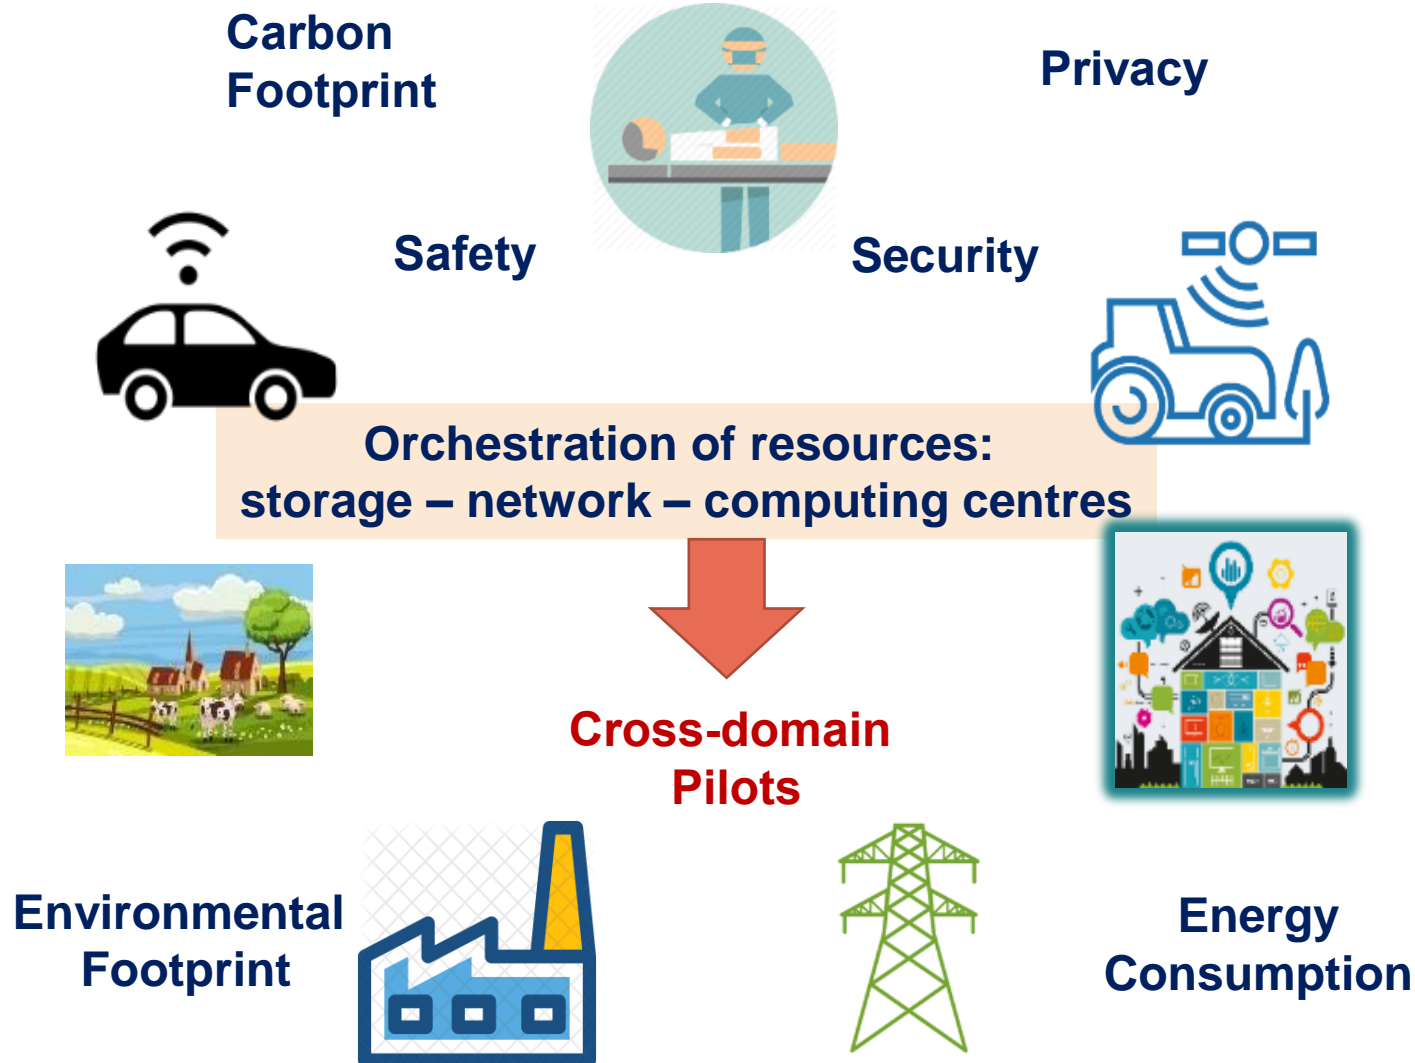

- Mix between cloud – edge operations

## • Possible Market actors

- OEMs of EVs + EV CPOs
- Energy communities
- virtual power plants / home batteries
- EV fleet management

# Industrial IoT Use cases underpinning the trend towards the edge

Strategy:

**A Platform Approach to share hardware and foster an Open Ecosystem**

- *in areas such as renewable energy, buildings and electro-mobility, farming and/or industrial automation ( incl. condition-monitoring/predictive maintenance and logistics)*

# HORIZON-CL4-2024-DATA-01-03: Piloting emerging Smart IoT Platforms and decentralized intelligence

➤ Type of Action: Innovation Actions (IA)

Opening: 15 November 2023

Deadline: 19 March 2024

Budget: EUR 45 million

EU contribution per project: EUR 20 – 25 million

➤ Technology Readiness: Level Activities are expected to start at TRL 3-4 and achieve TRL 6-7 by the end of the project

**FSTP: Financial Support to Third Parties:** for max. 20% of funding // max amount 200k €

→ increase the innovation capacity of industry, in particular SMEs, through take-up and validation of emerging edge platform interfaces, in particular to foster edge solutions, which represent a modular functional spectrum of executable apps and services.

# HORIZON-CL4-2024-DATA-01-05: Platform Building, standardisation and Up-scaling of the 'Cloud-Edge-IoT' Solutions (Horizontal Activities - CSA)

## A framework to spur a vibrant IoT ecosystem

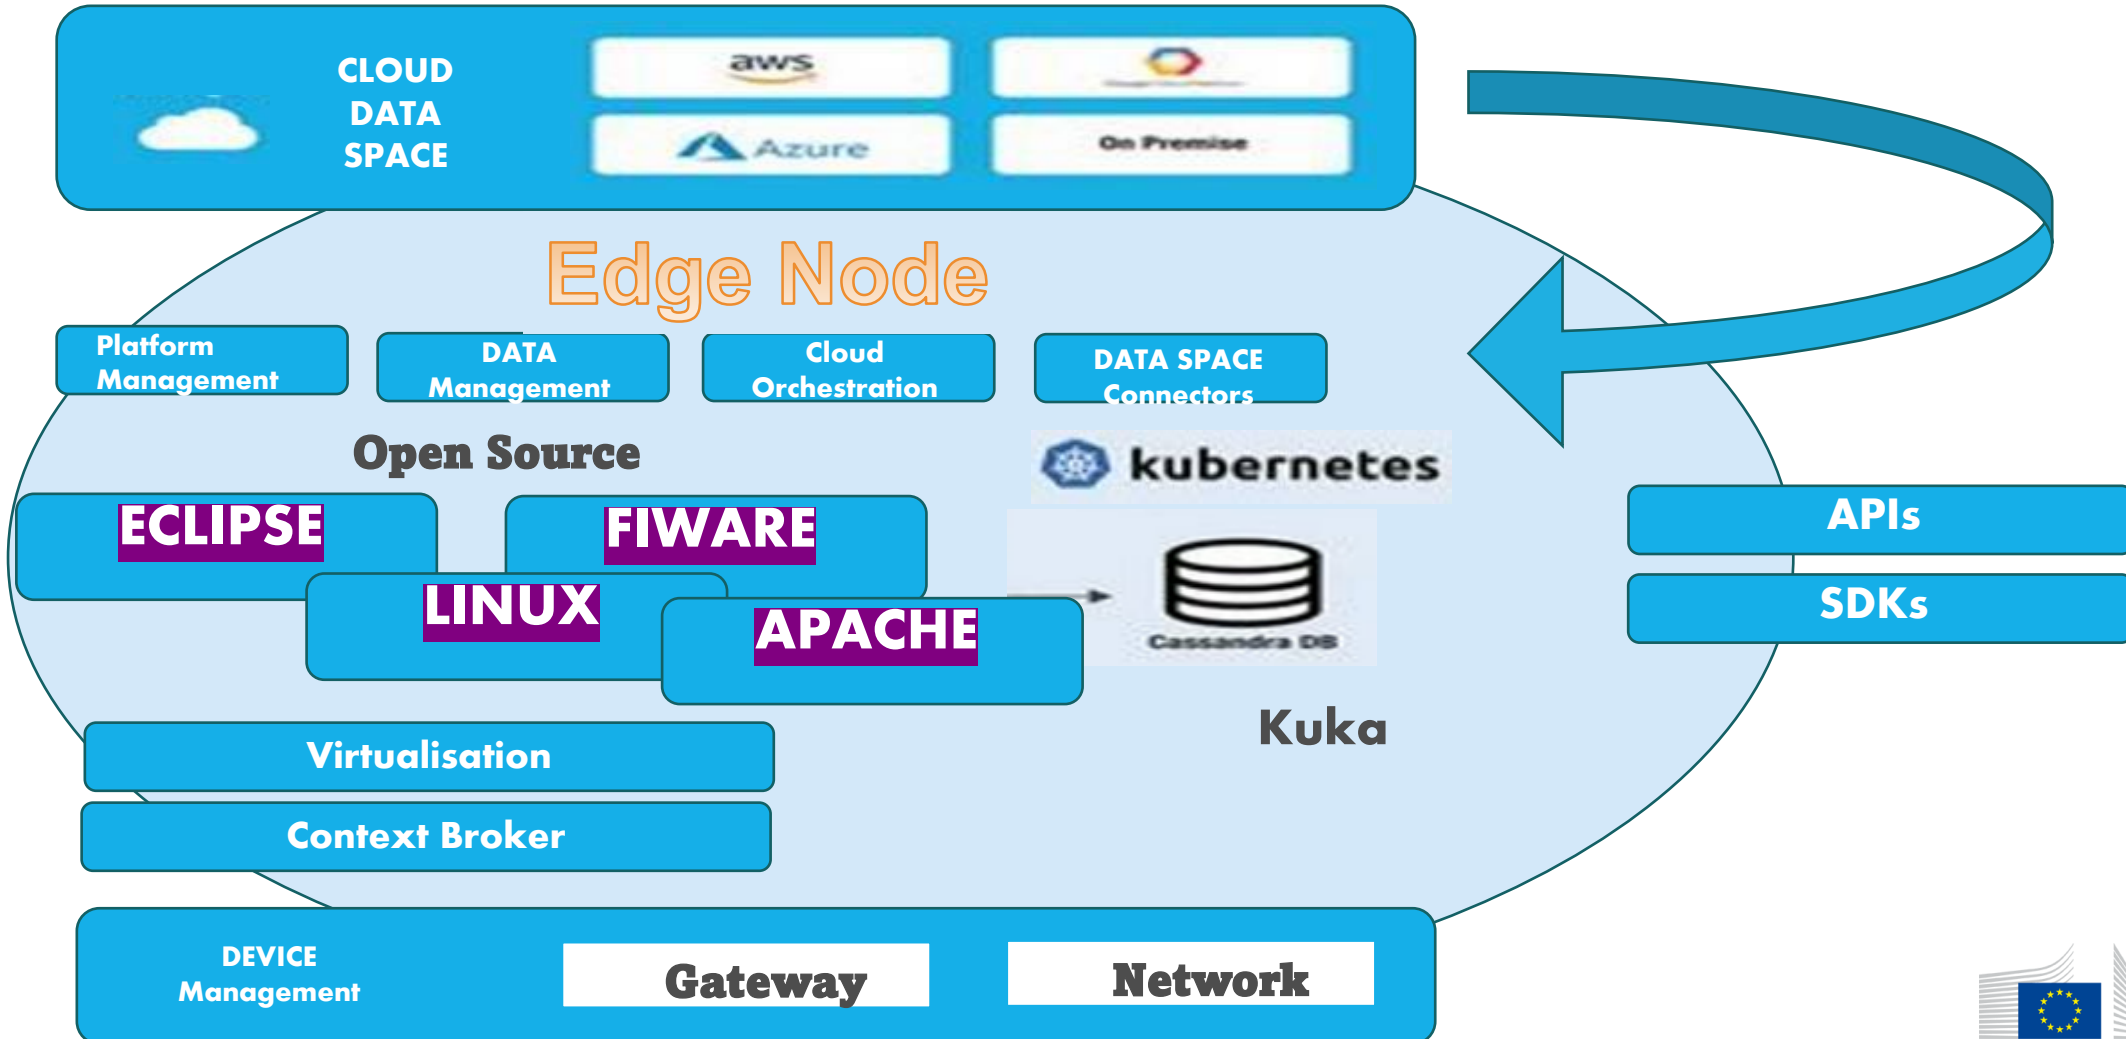

- Manage Complexity through *an open platform approach*
- *The value of an IoT Platform corresponds to the size of its ecosystem* behind the platform
- *Edge platforms* lead to new opportunities for **network orchestration and computing**
- Require **consensus on interoperability and standards** as well as ecosystem building in and across verticals

# A reference architecture – Open Source

## HORIZON-CL4-2024-DATA-01-03: Piloting emerging Smart IoT Platforms and decentralized intelligence (IA)

### Scope: Checklist for Multidisciplinary / horizontal Activities

- **address cross-sector platforms** in more than one application domain, which are strategic for European competitiveness .
- **Address cross-cutting aspects** like open standards, open-source frameworks, data compliance, security as well as synergies across sectors.
- **Proposal to include a business case and exploitation strategy.**
- **Standardisation:** Research should cover interoperability for data sharing @theEdge // build on existing standards or contribute to standardisation
- **Collaboration in a wider context:**
  - ➔ *Pilot projects will contribute to the coherence/cluster work that will be implemented by the CSA called under WP2024-DATA-01-05.*
  - ➔ collaboration with existing projects and synergies with other relevant European, national or regional initiatives, funding programmes and platforms such as KDT JU, GAIA-X, et al

# Piloting Smart IoT Platforms + decentralised Intelligence

## ➤ More Computing Capacity at the Edge

- Leverage next generation of chip supply in Europe

## ➤ Platform Economy at the Edge

- Open APIs .. Towards an **App Store at the Edge**
- Up to 20% for Open **Call for Edge** applications

## ➤ Fostering the Green and Digital Transition

- Edge services spanning across different key domains
- Common architectures and open standards

• **HE WP2024 call for Innovation Actions with 45 Mill €**

# HORIZON-CL4-2024-DATA-01-05: Platform Building, standardisation and Up-scaling of the 'Cloud-Edge-IoT' Solutions (Horizontal Activities - CSA)
